

Maristhill Nursing & Rehabilitation Center Consistently Recognized for Environmental Programs

LISTED ON NATIONAL HONOR ROLL OF HEALTHCARE FACILITIES COMMITTED TO THE ENVIRONMENT

For many years, Maristhill Nursing & Rehabilitation Center has been consistent in our commitment to sustainability and to adhering to a wide range of “green” protocols.

For example, Maristhill has received a number of “*Partner Recognition Awards*” from **Practice Greenhealth**, a national membership organization for health care facilities committed to environmentally responsible operations. The award is one of the organization’s *Environmental Excellence Awards* given each year to honor outstanding environmental achievements in the health care sector.

“Maristhill has been singled out for their efforts to protect patient health and preserve the environment,” said **Anna Gilmore Hall**, Executive Director of Practice Greenhealth. “Their approach to health care demonstrates a keen understanding of the impact our activities have on the environment and a commitment to build on the achievements they have made so far.”

In addition to our membership in *Practice Green Health*, Maristhill has also created a *Green Team*, which meets quarterly to review and reaffirm compliance with the latest environmental best practices, and which also conducts staff training programs on green-related initiatives.

We are also:

- An inductee into the *Environmental Leadership Circle*
- Recipients of the “*Making Medicine Mercury Free*” award
- Committed participants in sustainable food service practices
